

COMFORTLINE
WELLNESS BATH

A WELLNESS BATH WITH INTEGRATED HYDROTHERAPY

THE COMFORTLINE WELLNESS BATH IS A FREE-STANDING, HEIGHT-ADJUSTABLE BATHTUB OFFERING A SUPPORTED AND RELAXED BATHING EXPERIENCE.

Attendants will benefit from the Comfortline's ergonomic design and efficient bathing cycle. Simple installation of the Comfortline allows it to be positioned in almost any central bathing area or bathroom. Controls have been designed with simplicity in mind and the smooth design makes it easy to clean and maintain.

WELLNESS DESIGN

The Comfortline is a free-standing, aesthetically pleasing, height adjustable bath. It has been carefully designed to ensure a relaxing and therapeutic bathing experience, whilst allowing the carer to support at a practical working height.

The tub is shaped ergonomically to provide a restful and relaxing experience, with handles placed centrally for additional support. The bath can be positioned in almost any central bathing area or bathroom allowing the Comfortline to be easily accessible from either side or either end of the bath.

MAKE A STATEMENT

The Comfortline Wellness Bath is ideal for use in a Nursing Home, Domestic Home, Hospice or similar and is customisable to meet the needs of both the users and the environments they are installed into. Cool colours such as blue, green and violet have been proven to create a sense of calm, so these hues are ideal in bedrooms and bathrooms or any space where relaxation is required. Yellow is a subtly optimistic, happy colour, while White has long been a symbol of purity and cleanliness. Colours are an important aspect of designing a space.

So when considering equipment why not make a statement and choose the Comfortline in your RAL colour of choice.

EASY TO OPERATE & MAINTAIN

SHEPHERDS CROOK

Shepherds Crook for shower hose to comply with UK regulations regarding Category 5 back flow prevention (Option).

ADJUSTABLE FOOTBOARD

The Comfortline comes with an adjustable footboard which can be used to reduce the internal length of the bath. This is ideal for multi-user environments or for younger users allowing the bath to adapt with them as they grow.

STIMULATING AIR SPA

Air from the twelve integrated jets offer comfort and relaxing bathing experiences. System has adjustable, varying intensity settings and simple controls (Option).

ATMOSPHERIC LIGHTS

Underwater lighting system that can be adjusted to project different wave lengths of colour providing a soothing effect (Option).

IMMERSIVE MUSIC

Music sound wave system with four speakers AUX and bluetooth, provide a relaxing musical mood enhancing environment for the bather (Option).
